

ACQUA[®] Klinik

Service. International.

High-Tech-Surgery. Made in Germany. Performed in Leipzig.

ACQUA Safety

ACQUA Klinik is using one of the most progressive systems for surgery worldwide. The latest KARL STORZ™ ORx-340 is supporting the crew with features such as tool tracking, distance control or nerve collision warning. The surgeries are standardized based on surgical handbooks, which fulfill highest international demands and are updated regularly. Further treatment is ensured worldwide through the Surgery Quality Alliance.

ACQUA Quality

ACQUA Klinik publishes the results of all surgeries every six months. Through these performance reports the patient can get a neutral picture of chances of success as well as possible risks and costs. ACQUA Klinik is investing above average in regular trainings for the entire surgery crew. The results are within international top range and make ACQUA Klinik a premium carrier for ENT-surgery.

ACQUA Comfort

ACQUA Klinik is offering each patient up-to-date comfort in personal single rooms in three categories from basic up to luxury surroundings. For international top level treatment a concierge service, multimedia services and an in-house travel department are provided. A cooperation with five-star-hotels makes Leipzig also attractive for longer stays. A shuttle-service to airports and cities such as Leipzig, Dresden and Berlin is available.
